

# MACHINE DISHWASHING DETERGENT

## NON CHLORINATED

AUTO DISHWASH LIQUID FOR USE THROUGH LIQUID DISPENSING UNITS

Contains: Potassium Hydroxide 10% - 30%

Machine Dishwashing Detergent is a concentrated liquid designed for use in dishwash machines fitted with liquid dispensers.

With its high alkalinity, Machine Dishwashing Detergent removes a wide range of food and associated stains as well as ensure sanitation of all items washed.

Machine Dishwashing Detergent contains polymeric dispersing agents to ensure less scale. Machine Dishwashing Detergent contains no added fragrance for food surface contact applications.

Machine Dishwashing Detergent is to be used through an automated dispenser only.

### Machine Dishwashing Detergent :

- ✓ Cleans
- ✓ Disinfects
