

Billi Ultra Specification Sheet

On wall Instant boiling water system.

Instant Boiling Water

The Billi Ultra is a cost effective source of instant boiling water at the touch of a lever. This wall mounted boiling water unit is essential in any commercial environment.

Silent Standby

The Billi Ultra features unique technology which ensures quiet operation while maintaining the temperature at boiling point for immediate use.

Conserves Energy

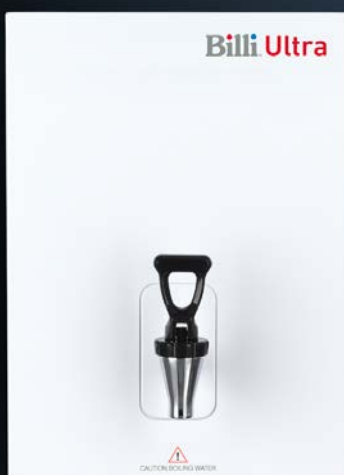

When recovering temperature after use or a period of being turned off, the power to the element is continuously reduced as the Billi Ultra approaches boiling point. This has the effect of maintaining boiling temperature without generating any steam, or exceeding the energy required to boil.

Trouble-free Operation

The Billi Ultra unit can safely be left on in the event of a water supply cut-off. Once water is available again it will begin to operate as per normal. In addition, the heating element has an inbuilt safety device, which automatically switches it off if the temperature increases above normal operating conditions.

Commitment to quality

In line with Billi's long-term commitment to quality, high quality materials have been carefully selected for maximum dependability and longevity.

Billi Ultra Specification Sheet

Specifications and guide to standard model selection

Product Number	Description	boiling water capacity litres	boiling water capacity cups	Heating element kW	Height mm	Width mm	Depth mm
910030	Ultra 300	3	18	2.4	370	260	155
910060	Ultra 600	6	36	2.4	420	310	170
910080	Ultra 800	8	48	2.4	510	310	170
910160	Ultra 1600	16	95	2.4	545	365	220
910250	Ultra 2500	25	160	2.4	550	414	264

Water Supply

A single 15mm (1/2") stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa.

Power Supply

The Billi Ultra model requires a standard 10 amp AU power outlet 230-240V AC, 50Hz 2200w-2400w

Certifications

Every Billi drinking water appliance is manufactured under a certified quality control system. The Ultra models have been tested and complies with all required standards including Watermark SAI Global AS3498 WMKA00628; Electrical safety UL Cert no: U20292

Warranty

All components of the Billi Ultra are covered by a 24 month warranty
